Symposium Chair: R.S.Romaniuk

IEEE WILGA Symposium

Mysterious ways to organize a successful IEEE Student Branch Symposium

- 1. Gather the best quality presentations and papers (peer reviewed)**
- 2. Offer the most exciting topics (for young scientists)**
- 3. Extend the best possible umbrella: IEEE, SPIE, University,**
- 4. Publish the proceedings in the best possible place**
- 5. Gather young people from distant places**
- 6. Make everything very cheap, nearly free, find sponsors, rely on voluntarism**

7. Go along three simple rules: 1) Have fun, 2) Have more fun, 3) Learn a lot
